## Foreword

IN A SINCERE ATTEMPT TO MAKE THE ANNUAL MORE COMPLETE, WE HAVE INCORPORATED WITHIN THESE COVERS THE FACES AS WELL AS THE NAMES AND DOINGS OF THE UNDERGRADUATES. WE HOPE THAT, BY THIS INNOVATION, WE HAVE MADE THIS VOLUME OF THE GUMBO A LITTLE MORE INTERESTING AND A MORE VALUED KEEPSAKE. WE PRESENT IT TO YOU NOT AS A MASTERPIECE OF UNUSUAL MERIT, BUT AS A MERE CHRONICLE OF THE ACTIVITY AND ACHIEVEMENTS OF THE STUDENT BODY DURING THE PAST YEAR. IF WE HAVE DONE THIS IN A SATISFACTORY WAY, THEN OUR PURPOSE IS ACCOMPLISHED.

SILVESTRE R. ASUNCION

Balayan, Batangas, P. I.

*Candidate for M.S.*

LEWIS E. LONG . . . . . Baton Rouge

*Candidate for M.S. in Agriculture*

B.S. '19

Lewis of Dramatic Club fame is taking work here only as a side line now. His chief duty is fulfilling the desire to see more of the school. He has learned already all there is to learn.

RAMCHANDRA G. PADHYE . Poona, India

*Candidate for M.S.*

Bachelor of Agriculture from Poona Agricultural College of Bombay University '12; Sugar Chemist and Superintendent Sugar Experimental Station, near Poona, India, '12-'20.

ANDREW TRICHE . . . . . St. Gabriel

Φ Α

*Candidate for M.A.*

Professor Triche loves the old school so much that he hates to leave. Took up all they taught and now should become a permanent fixture.

## Post Graduates

Quiet and reserved is Dawson. A good student and serious, too. The world has more to hear of him.

JESSE LAVELLE FARR . . . . Marion

$\Phi A, \Lambda X \Sigma, M \Sigma P$

*Candidate for M.S. in Sugar and Mechanical Engineering*

ARCHIE V. MEIGS . . . . Ashland, Ala.

*Candidate for M.A.*

Archie came to us as a graduate. Nothing much to say, but knows how to do things.

## Senior Class

GRADY G. ALBRITTON . . . Farmerville

*Candidate for B.S. in Chemical Engineering*

Grady is going to be a chemist some day if he doesn't be something else. He has all the indications of being another Pasteur.

THOMAS C. ALDERSON . . . Katy, Tex.

Σ N

*Candidate for B.S. in Agriculture*

Dutch needs no introduction, for who has not suffered from his display of talent. No, he doesn't pack artillery just because he's from Texas.

Φ A, Dagger

*Candidate for B.S. in Chemical Engineering*

Glee Club '19-'20-'21; Orchestra '20-'21; Band '18-'19-'20-'21; Tiger Quartet '20-'21; Chorus '19-'20-'21.

If you haven't seen Ray gliding across the campus dressed in his Keystone smile you've missed something. If you don't find him sitting on the Chemistry building steps you'll find him holding down the banisters of Physics building.

JOSEPH A. BABIN . . . Baton Rouge

*Candidate for B.A. in Arts and Sciences*

Babin is a serious-minded chap and should make his way in the world in his quiet and unobtrusive way.

# 1921

W. A. A. '19-'20-'21; Women's Glee Club '17-'18;  
Y. W. C. A. '17-'18; Champion Basketball Team '19-'20; Champion Volley Ball Team '20-'21.

JESSIE HAYS BROWN . . . . . Arcadia

Δ Δ II, Δ Γ Δ

LUCIEN E. BROYLES . . . DeQuincy

*Candidate for B.A. in Arts and Sciences*

*Graduate of Valparaiso University with Degree of Bachelor of Pedagogy.*

Being here only during summer sessions, Broyles has not made our acquaintance. From what we hear, though, success is a part of him already, for he is principal of the DeQuincy High School.

E. T. BURKE . . . Marion

*Candidate for B.S. in Agriculture*

He has chosen the favorite occupation and desires to live in close juxtaposition to nature. With a dip safely tucked in his girdle he will journey back to Marion and be content with his lot.

MARIE CORA CAIRE . . . Baton Rouge

*Candidate for B.A. in Arts and Sciences*

Cora has a name or two in addition to those already listed, but space would not permit that we run them all. An enterprising young person who seems entirely too small to be graduating.

# 1921

CRAWFORD K. DUNBAR . . Baton Rouge

*Candidate for B.A. in Arts and Sciences*

Circulation Manager Reville '20-'21; Y. M. C. A.  
Cabinet; Alternate Varsity Debating Team '20-'21.  
How one so little can get on the outside of so much  
knowledge in such a short time, for he is a three-year  
student, is beyond us.

## Senior Class

JAMES K. GLADNEY . . . . . Homer

Y. W. C. A. '19-'20-'21; Y. W. C. A. Cabinet '19-'20-'21; Student Council '19-'20; Semi-Chorus '20-'21.

If Ruth possessed a really good press agent, Theda Bara and the rest of the vamps would have to go out of business. You may think you've seen coquetish maidens, but, oh, boy!

EDWIN A. GONSOULIN . . . . . New Iberia

*Candidate for B.A. in Arts and Sciences*

Corporal, Company "B" '18-'19; Quartermaster Sergeant '19-'20; 1st Lieutenant, Company "C" '20-'21; Member David J. Ewing Post.

A scientific farmer he intends to be. Beck will be replaced by a Fordson on his farm.

WILLIAM B. HANLEY . . . . . Crowville

*Candidate for B.A. in Arts and Sciences*

"Red" missed his vocation when he tackled law. He should be a linesman for Mr. Western Union. We only see the lower half of Red on a foggy day.

JOHN O. HEBERT . . . . . Milton

*Candidate for B.S. in Agriculture*

John is another who wasted a perfectly good young life to learn how to plant potatoes. He should return to Milton, however, and impart his knowledge to the waiting public.

Secretary-Treasurer Co-ed Club '17-'18; Reveille Staff '17-'18; Nicholson Literary Society '18-'19; Sponsor Staff '20; Secretary Senior Class '20-'21; Gumbo Board '20-'21.

THOMAS B. HOLCOMBE . . . . . Jackson

Α Χ Α

*Candidate for B.A. in Arts and Sciences*

## Senior Class

LILLINE LOGAN . . . . . Benton

Δ Δ Δ

Fatty's doing his best to hide behind that name wished on him, nine to one by doting parents, but he's so wide he sticks out. Fatty's fame as a revival preacher goes before him. He does his best to look dignified when draped over one of the M. T. C. trucks, but somehow it can't be done.

Our hat is off and our hand is out to "Doc" Schell as the personification of all that is best in the modern girl. Harry modestly tries to hide behind a pair of huge tortoise rims, but it can't be done. We could go on and on about his numerous accomplishments, but the masses might think, as it's Harry's book, that he wrote it all himself. We will say, however, that he is the originator of the university's most famous yells, which are unfortunately not in the cheer leader's collection.

Some take Home Ec for one reason and some for another. Lucy is in the latter class. As she so coyly remarked, "You can't expect Bill to be satisfied unless I can cook." We understand that this is but the beginning of Lucy's education and that she is even now taking a course leading to a M.R.S. degree.

FLORENCE TADDIKEN . . . Baton Rouge

MILITARY

LIEUTENANT-COLONEL SYDNEY SMITH, Inf. U. S. A.  
*Commandant*

By his fair and considerate dealing and his tolerant attitude toward the thoughtless indiscretions of youth, Colonel Smith, as he is affectionately known, has won the respect and admiration of every man who has had the opportunity to be a student during his four years' administration. May he continue in that office, a man's friend and a credit to the university.

## Company A

IN the old days when a big well-built man presented himself for assignment to a company in the battalion, "Sarge" Hogan would turn to the assisting sergeant and say, "Hump, by God, he's a good man. Put him in 'A' Company. 'A' has always continued to be made up of good men who are willing to put forth their best efforts to keep their company first in the eyes of the military authorities and on top in all intercompany athletics.

Foremost among these men stands our captain, B. E. Mevers, who holds the respect and admiration of his men and who has the knack of handling his men down to such a perfection that they actually enjoy drill when conducted by him. Although he was forced to be absent a part of the time, he has made "A" Company an example of pep and discipline.

Earl Ewen came in as captain during the absence of Captain Mevers, and by putting the same force in drilling as he has shown repeatedly on the football field, he had the cadets drilling like regulars. At inspection he was the despair of poor freshmen when he showed them grease and dirt in cavities of the rifle that they had not known previously to exist.

Our first lieutenant, J. F. Whitley, has an unlimited knowledge of military matters, and easily deserves his position as highest ranking first lieutenant in the battalion. "A" has two good second lieutenants, F. H. Simon, a man of military bearing and whose knowledge of military matters is second only to that of our worthy first lieutenant, and the other, "Rip" White, is a man who fully realizes the burden and distinction of his military responsibility and achievements, and he enjoys making an inspection of quarters more than he does eating a square meal, and would sooner miss his own wedding than miss making one of those inspections.

We have a first sergeant, Fritz Spencer, and if he has as much success as captain of the 1921 Tigers as he has had as leading the non-coms of "A" Company the "Green Wavelet" will be completely swallowed.

Of sergeants we have Robert Magee, Andre Trawick, who is also student manager of athletics; Slick Courrage, Dad Booley Moore, Mex Bondurant, Frank Vought and J. L. Daniel.

Our corporals are well fitted for their positions. They include R. F. Kennon, who hails from Minden; "Count" Waymouth, who is equally proficient in the art of playing a piano and training hounds; "Colonel" Kitchens, who handles his squad of eight men with bravery and display; Ike East (also musically inclined), and Kit Carson.

Knox Walker, after five years' drilling in the ranks, now rates the file closers and honors the company with his presence about once a week. Tom Holland holds the important position of ranking private in the third squad of the second platoon.

The one characteristic most noticeable about "A" is the display of pep by its members. This is evident not only in all varsity contests and student activities, but in performing their usual duties as well.

## Company B

COMPANY still shows that "B" stands for Best and Bravest. Do not think, though, because we have such men as Bill Browning, Brigante, Boyette and Bugler Baskin that "B" Company was named after these men. "B" Company is composed of sixty-eight men, every one of whom is there by choice and wouldn't be anywhere else. To be little and big at one and the same time is a double achievement and one that Company B places much pride in. Company B may be small in stature, but it is large in achievements.

At Ease! Give attention while you hear of the notable men of Company B. First of importance, of course, is Captain M. E. Woodard, who rules the company with an iron hand. "B" Company is proud of him. He always has been a military man, starting out at Annapolis, aspiring to be a sailor, but decided that he'd rather be a "captain in Colonel Smith's army."

First Lieutenant Brigante is a very genial and good natured military genius. He is captain of the varsity baseball squad, a member of the "L" Club, and one of the most popular men in school.

Second Lieutenant Messa boasts that he is an engineering student and probably would do better in the Engineering Corps, but he can drill any company, even "C," as long as "Forward, March!" and "Halt!" are the only necessary commands.

Sergeant Bill Browning felt that it was more important to educate Webster Parish than to make soldiers for Uncle Sam, so he left us at the beginning of the second term, leaving J. E. Boyett to succeed him as first sergeant. Boyett, along with his captain, is a military genius from Webster Parish, the land of "white lightning."

Next in line come Sergeants Atkins, Wallace, Thomas, Gibbs, Levy and Rankin, who are ornaments to the company and whose chief desire is to adorn the file closers. Atkins is a member of the varsity basketball team, secretary-treasurer of the "L" Club, and secretary-treasurer of the Junior Class. Gibbs is a noted ladies' man, ex-Glee Club member, one of Prof. Gilbeau's band men, and a member of the varsity football squad. Wallace and Thomas are famous as two of "B" Company's best football players. Levy is known everywhere around as Jack Pickford because one of his many feminine admirers almost persuaded him to enter the movies. Rankin, as his name indicates, was the ranking private of the battalion for two years.

The corporals of Company B are above par, of course. Corporal F. W. O'Bannon won the medal awarded the best drilled man last year. Beyt, Edgar, Herring, Fomby, Harris and Murphy make excellent squad majors.

Among the privates, Freshie Weil (he thinks he is) holds the record for jumping drill and classes. Dale is a third year private and is proud of it. Robert Louis Stevenson Jones is originator of the antis, namely, conscientiously opposed to the hog law. Teddy Kramer is a star track man. Happy Young has military aspirations as well as athletic ambition. Space prevents further details. Nevertheless, social lions, literary lights, distinguished musicians and military geniuses can be pointed out at will in this select group of cadets.

We are proud to say that Company B has more members on the Honor Council than any other company, i. e., Woodard, O'Bannon and Kramer.

P. S. If anyone wishes further information, ask Corporal Murphey, the company clerk, about the company "rooster."

## Company C

PROVING unquestionably that the slogan, "Might Makes Right," is based upon theories of the dark ages, Company C has shown that it is a matter of brains and not only that of *avoirdufois*. Company C's personnel, though made up of students of diminutive size, has not only proved its ability to stand its own against the other companies, but has proved its superiority. For was not last year Company C's grid team the champion of the battalion? Company C has produced leaders in the various student activities and is making all others look to her as an example.

This unit is ably led by Captain Irvin F. Polmer of Schriever. Company C fully realizes that it is fortunate in having a leader as Captain Polmer. He has devoted his attentions so thoroughly to the welfare of his company that he has won the love and esteem of every man. He also played on the varsity squad and showed his worth on the gridiron.

First Lieutenant Gonsoulin of New Iberia has successfully guided the destinies of the first platoon and has endeavored to put that part of "C" up where it belongs.

Second Lieutenant Ferguson is an excellent addition from Company A. He was found to be a good man while in "A" and so by natural laws he was put in with good associates.

Next comes First Sergeant Billy Mott, the company song leader, who has been such a success as assistant to Captain Polmer in his work that he is directly in line for captain next year. Bill is Junior Class President and a member of the Tiger quartet.

Fomby Coleman is our quartermaster sergeant, a good man in a good company, where he has shown good qualities. He is captain and manager of the company football team, playing in the back field.

E. A. McRae is our first platoon sergeant. Mac is a splendid fellow, keeping at it in a quiet way, but getting there. He is a stand-by in company football.

Willie Bonin handles his part of the work in the second platoon like a veteran. Sergeant C. B. Gladney is an example of our company in that he has a massive mind and a small physique. "Izzy" Wolf made his letter in football this year as a result of his peppy work and he goes about the company the same way. Izzy is the company football coach. Sergeant R. D. Hays has risen in the company. He played scrub football the past season and should develop into a good man. Sergeants Guidroz, Munson and Voorhies, H. J., are doing their best to make "C" the champions as of yore.

We have a fine set of corporals in Hernandez, Fuller, Lowery, Taylor, Drake, Shilling, Hays, J. C., and Fletcher. Fletcher was a hero last year when he caught a pass and ran for the only touchdown against the mighty "A", winning the championship.

Scott is the fliest freshie in the company and makes things merry by his good nature.

As Col. Hash's horn is blowing, we are going to the mess emporium and shall leave you until 1922.

## Company D

REVITY being the keynote of this account, without further prologue, we might say that Captain White is an excellent example as a leader of our company. He has always stood high in our estimation in affairs military and we find him well versed in other matters as well. Just how or why, we do not know, but luck has especially favored Company D. Red White, as he is known to his men, holds an enviable military record. This, together with his genial personality, places him foremost in the esteem of his company.

First Lieutenant "Red" Woodard does not only stand forth when in gridiron togs, but as a military man he ranks among the highest. When a fellow sees "Red," although there is a slight ambiguity here, he sees a man.

Next in rank, but of no less note, is our Second Lieutenant Landry, his avoirdupois and congeniality having made him quite a favorite with his men. He, too, was on the varsity squad.

Speaking of favorites, our other second lieutenant, Marrero, with his quaint accent has won his way into the hearts of the cadets.

The staff is never complete without a first sergeant. Tom Firnberg in military matters has proven himself worthy of this rank. Our sergeants, although of slightly different rank, are equally well liked by the men. Joe Sonnier, with his French accent, holds down the important post of quartermaster sergeant. Gordon Cranfill, with his jelly-bean mustache, adds considerably to the appearance of the first platoon, serving as platoon sergeant. Clifton Morris, with his strictly military bearing, leads the second platoon. "Izzy" Kingsbury, the freshmen's "nightmare"; "Vamp" Hortman, the ladies' delight, and "Freshy" Pettit, the "Sunkist" product of Southern California, guide the company in the straight and narrow way.

Embryo military geniuses are our corporals. They are: McFarland, the military squad major; Blackwood, of the horse marines; Grigsby, master of football; Matthews, the real freshman trainer; Dawkins, the model of the slow and easy type; Garahan, a devil in his own home town; and "Frock" Keller, the night owl.

A play without actors and a company without privates would be lacking absolutely in any scene. Among the actors are always a few who stand foremost, likewise, among our privates. Speaking of appetites, Private Phillips certainly takes the cake, for at one sitting he ate twenty cafeteria sinkers. Freshie Pitre, our fleetest hound, became famous through his attempt to organize the "I Don't Give a D— Club." Freshie Hazen, another in our hall of fame, is absolutely the personification of ignorance, having asked Tad after one of our football games, which he had witnessed, "Who won the game, Tad?"

True to its traditions, Company D has upheld the Tiger spirit on every occasion. On the gridiron our distinguished ones are Red Woodard, Bob Hereford and "Fatty" Landry. On the Baby Tiger squad we boast of Blackwood and Pug Steele. Company football spirit cannot be denied. The company squad was faithful in its endeavor to capture the coveted banner of victory this year.

Glee Club celebrities in our ranks are: White, Firnberg, Cranfill, Pettit, Roberts, Morris and Hoffpauer. Basketball, baseball and track find "D" well represented; conclusive evidence that our claim to Tiger spirit is justified and we are rightfully proud.

## Motor Transport Corps

Our gaze sweeps over drill field during dress parade our attention is certain to be attracted by the well disciplined M. T. C., the husky baby company of the battalion.

The M. T. C. was organized last year and has made wonderful progress. The members of this company were selected from the engineering school and with the excellent equipment, consisting of a number of trucks, automobiles and motorcycles, for which adequate accommodation has been provided, the company expects to accomplish a great deal.

Standing out very prominently in the sight of every man in the company, as well as the spectators, is the captain, G. H. Mixon, better known as "Reverend," who may not have so high a standing in the battalion as some, but may be credited with a much broader understanding. "Reverend" is from "Bloody Tangipahoa," a name that suggests the military side of him, his unswerving adherence to the harsh discipline of the cadet.

Next in rank and honor comes our first lieutenant, G. A. Zernot, who has won the esteem of every man in the company by his firmness and fairness.

The little fellow with the leather putts on, leading the second platoon, is our second lieutenant, B. V. Marrionneaux. B. V. is a firm believer in polished shoes and clean guns at inspection, but his one fault is his weakness in falling for the fair sex.

The military and athletic record of our first sergeant, E. M. Shirley, is looked upon with envy by many. He has won the admiration and respect of the entire company by his persistence and fairness as company disciplinarian.

One of our greatest and loudest assets to the company is our ranking platoon sergeant, N. C. Stevens, known as "Enormous." It is his greatest delight to snap out his orders to some awkward and fear-stricken hound.

General "Bush" Harrington, our illustrious quartermaster sergeant, is as hard boiled as he is small. The other sergeants, I. R. Verret, R. C. Martin, L. J. Savoie, H. Johniken and R. M. Contois, are invaluable assets to the company. They are faithful to duty as old-timers and can well be relied upon to instruct any erring frosh along military lines.

Our able squad generals, Sobert, Herget, Jackson, Wemple, Van Meter, White, Frederick and Coates, are always on the job and are as able to command a squad—in their estimation—as General Pershing.

The activity of the remaining men vary widely. Kohman is a perfect replica of T. D. "Pickle." Dill may not be strong on looks, but when it comes to stepping a mile he shakes a wicked set of spikes. Sister Watts' only ambition is to be a corporal.

In athletics and other activities the M. T. C. comes in for its share of the honors, competing creditably along with the infantry companies of the battalion.

## Machine Gun Company No. 1

MODERN warfare has demonstrated the effectiveness of machine guns, automatic rifles, hand grenades, light trench mortars and 37 mm or one-pounder guns as auxiliary weapons to infantry units.

The course of instructions laid down by the War Plans Division, General Staff of the War Department, for Senior Divisions, Infantry Units of the Reserve Officers' Training Corps, calls for instruction in the handling and use of these weapons. In order to carry out the instructions of the War Department, a machine gun company was organized on January 3, 1921.

This company is composed of all members of the second year basic course. Cadet Captain Earl L. Ewen, who served as a lieutenant in the United States Army during the World War, has been designated to command the machine gun company, the first of its kind to be organized in this state.

# The L Club

The "L" Club was organized during the close of the football season of 1919. All men that have made their letters in varsity athletics are eligible for membership, and since its organization more than forty men have been taken in. At present there are thirty-six active members. The club has its quarters in B building, and the rooms serve as the meeting place for the officers and men.

BRANCH BOCOCK, football coach and director of athletics, though he has only been at L. S. U. one season, has already left an imprint on the athletic activities of the university. Quiet, dignified, never raising his voice, always a gentleman off and on the field, a firm believer in clean sport, Branch Bocock is the new type of football mentor.

FRANK GORMLEY, assistant football coach and director of athletics, helped greatly to put the Tigers over one of their hardest seasons in many years. Ready to fight at the drop of a hat, his bolstering of the spirits as well as the bodies of the varsity men was a big factor in every way. Tad is always on the job and is ever looking after the welfare of the Tigers.

S. J. GOTTLIEB, student manager, while not required to participate in the field battles, had his hands full fighting train schedules, keeping State field from becoming too small, and other duties of a student manager seldom appreciated by one who does not know the duties of such an office. S. J. was there with the goods.

## Football Review, 1920

S. U.'S 1920 FOOTBALL SEASON was not as good as people had hoped for at the beginning of the year. At the start it looked as though the Tigers would walk away with everything in sight. The doubleheader played with Jefferson and State Normal went a long way in making us believe that we had one of the strongest teams in the history of the university. These two games as well as the Springhill game proved to be good for L. S. U.

Then the Tigers went over to Texas A. & M. and met a real foe. holding them to a 0-to-0 tie. It was a great battle, and as the Texans were reported to have one of the strongest elevens in the Lone Star conference, it was taken for granted that the Tigers had the football goods. The next team to come along was Mississippi A. & M., who repeated their performance of the 1919 season, in giving us our first defeat of the year in a close battle.

The next game was an easy affair for us, being with the light Mississippi College team. After this easy fray, the Tigers journeyed to Shreveport the following week to have it out with the Arkansas Razorbacks. The dope on this battle was in our favor, but it remained for the skillful toe of Perry Hague to register a field goal, which was the factor that gave us the game.

The last trip of the season made by the Tigers was over to Tuscaloosa to face the "Thin Red Line" of Alabama. The Red aggregation had a strong team, and after a hard fight, in which the Tigers held the Alabamians in the first half, the Alabama team succeeded in running up a score of 21 to 0 on us. The Tigers were, however, rather encouraged by the result, as the Thin Red Line had its strongest elevens in years, and rated high in Southern football circles. On the way home, the team stopped over in New Orleans to see the Tulanians in action.

No game was played the following Saturday, as the Alabama game was staged on Thursday, Armistice Day, and the Tigers practiced hard for the Tulane game. Everything was ready for the big game here in Red Stick. Thousands upon thousands of people from all parts of the state gathered in the lair of the Tigers at the "Ole War Skule" to watch the great annual classic. Old and young alike gathered to witness the fight between the two powerful machines, and to see the ferocious Louisiana Tigers defeated by the Tulane Goats by a score that almost equalled that of last year, only at that time the L. S. U. team was at the big end of the score.

Never mind, however. When next year rolls around, and all the boys return along with some new ones, things are going to pick up, and look out, Tulane Goats. With Bocock's coaching there is no reason why we should not put out one of the strongest teams in the entire Southland.

## "L" Men

"RABBIT" BENOIT . . . . . Quarter

It was under the generaling and leadership of Benoit that the Tigers were enabled to show up their best. He is clever and a quick thinker, a speedy runner, and a good broken field runner.

"FRITZ" SPENCER . . . . . Center

Spencer was a hard player at all times, and with his position he was able to do much for the team. He is afraid of nothing, always ready to spring for his man.

"FATTY" IVES . . . . . Fullback

Ives won fame with his toe during last season, and kept up his reputation this season by outkicking his opponents and saving the Louisiana goal time and time again. He is a good player at anything he tries.

### "L" Men

"RED" WOODARD . . . . . *Right Tackle*

"Red" was a man that put his whole soul into the game. He was a power for the Tigers, and getting his man and getting him hard was ever on his mind.

"DIRTY" HELM . . . . . *Halfback*

For the second year Helm went into the game this season and quickly showed that he still had that old speed. Helm proved a valuable man.

"BIG BOY" BUSSE . . . . . *Left Guard*

Busse showed up extremely well all during the season and could be depended upon to open up a hole whenever it was necessary.

## "L" Men

"PERRY" HAGUE . . . . . *Halfback*

The broken field running of Hague was one of the greatest features of the Tiger team this year. He is one of the hardest tacklers on the team and is a good defensive man.

"JOHNNY" LEWIS . . . . . *Right End*

Lewis comes to us from Lafayette, and played his first season with the L. S. U. team this year. He is one of the swiftest men on any of the Southern teams, and he was always there on a punt.

"TUB" EWEN . . . . . *Fullback*

Ewen was powerful and went through with the ball for gains against all the teams. His charge was hard to stop.

## "L" Men

"BOB" HEREFORD . . . . . *Left Tackle*

"Bob" is a newcomer to L. S. U. and played his first game with us this season. He proved to be right there and was one of the most sturdy men the Tigers had.

"IZZY" WOLF . . . . . *Halfback*

During all of last year "Izzy" was with the scrubs every day and captained them through a successful season. This year he came up and played in some of the biggest games of the season. He could be depended on for a gain most any time.

"REGGY" MCFARLAND . . . . . *Halfback*

McFarland finished his second season with the Tigers this season. His work as halfback was of great value. During the latter part of the season Mac suffered with a broken collar bone and his loss to the team was truly felt.

## "L" Men

"PETE" SCHNEIDER . . . . . *Right Guard*

"Pete," a heavyweight and a hard, steady player, played with the varsity his first time this season. He played all last year with the scrubs.

"LEM" HEWITT . . . . . *Left End*

Hewitt is a first year man, coming to us from far away Nebraska. His playing was good all through the season, and he will prove a man of exceptional value to the Tigers next season.

"BOBEE" DAVIS . . . . . *Left End*

Davis is another scrub player that proved himself capable and moved up into the position of a real Tiger. Davis' playing was of great aid to the team whenever he was at his position.

## A Word for the Scrubs

THE SCRUBS, ever onward, ever true, ever on the job, matters not the weather, hot or cold, they are there, ever fighting. To them we owe the success of the varsity, the success of Louisiana in football. Constantly they buck against the men of the real Tiger team, constantly they are thrown for a loss only to get set and go again with only themselves wishing themselves success. All are pulling, fighting, downing them. Everyone, it seems, is for the varsity and for the varsity alone. Never do the Scrubs get into the limelight, or get the least bit of praise. All they know is fight. But they soon serve their time on the Scrubs, and many later go in as varsity men and as real Tigers. It takes a good Scrub to be a good Tiger. Much credit is due him, for he has fought and won, and it now depends upon the new Scrub to take the place of him that has moved up into the ranks of the real Tigers, where he can do his share in bringing more honors to the famous name of Louisiana and its fighting Tigers.

### The Likelies

The Likelies, organized by Coach Bocock shortly after the varsity season had closed, and composed of all second-string and scrub men who had shown promise, went in training under the personal supervision of the coach. They engaged every team in the Battalion League, defeating them all, and then on February 3 defeated the All-Star Battalion team, composed of the best material on the company teams, by the score of 35 to 0.

Coach Bocock is authority for the statement that probably ten men who played on either the All-Stars and the "Likelies" will find places on the 1921 varsity squad.

### Company A Football Squad

Ending an interesting postseason of football, carried on by five battalion teams and the Likelies, Company A emerged victorious after a series of hard-fought games. The Likelies were not members of the battalion league, but were allowed to play against the battalion teams for the purpose of developing future varsity football material.

Much interest was shown by the student body in these intercompany games and they served a magnificent purpose in fostering the spirit of sportsmanship and fair play that should be a part of a college education.

## Baseball Review, 1920

THE baseball team of 1920, while not up to the standard shown in previous years, made a good record after getting away to a very poor start. The players as a whole seemed unable for a time to produce the punch, but towards the middle of the season came back with some of the Tiger spirit, which enabled them to take a majority of the games on their schedule.

Great things were expected of the baseball team, due to the fact that most of the veterans were back, and that L.S.U. had received a bunch of good material from the high schools. However, most of this material failed to come up to expectations, but the team moved along somehow until it caught its stride during the middle of the season, and finished with a good record behind them.

Eighteen games were on the schedule, and out of this number the Tigers won ten, lost seven, and tied one. Of the seven games we lost, four were to the University of Alabama, who outclassed us on the diamond, having some of the best collegiate players in the South. Ole Miss came through with two wins over us, while Jefferson outlucked us in the second game of the season by copping a game.

Of the ten victories for us, the Tigers trounced the Millsaps College nine three times, and defeated, among others, Meridian, Ruston, Springhill and Jefferson. The fact remains that, though the standing of the Tiger nine, figuring games as a whole, was not what it should have been, yet the fact remains that the teams which defeated us were among the best in the Southern collegiate field.

The men who played on the team are as follows: Jones, Hanley, Landry and LeGuin, pitchers; Floyd and Smith, catchers; Floyd and Smith, first base; Brigante, second base; Sebastian, shortstop; Ives and Babin, third base; McBride, Babin and Ross, left field; Soule, center field; Landry and McBride, right field.

May 1—L. S. U., 85; Tulane, 32.

May 15—S. I. A. A. meet, Atlanta, Georgia—L. S. U., third, 24 3-4.

## Track Review, 1920

THE track team of 1920, after getting away to a bad start at the early part of the season, showed itself to be one of the greatest Tiger cinder teams in years by the overwhelming defeat it administered to the Tulane Goats on May 1, and following this up on May 15 by copping third place in the S. I. A. A. championship at Atlanta.

When "Tad" Gormley issued a call for track candidates during the winter months, more than sixty candidates responded to the call. A new team had to be formed practically, for the only veterans left were Captain Kean, Hague, McFarland, Love, Pipes and Rabenhurst, and it was around this small group that the 1920 track team was built. The intermural track meets staged every Saturday afternoon during the early spring months allowed all the candidates all the competition they desired, and also brought to light some good material for the varsity track squad.

Early in April "Tad" selected the team as follows: Sprints—Myrick, Helm; Frey; middle distance—Kean, Johnson, Love, Contois, Rabenhurst; long distance—Covington, Temple, Hull; jumps—Shirley, Funk, Pipes; hurdles—Reily, Hague, McFarland, Shirley; pole vault—Covington, Cavannaugh, Puckett, Ives; weights and field events—Schaffer, Shirley, Reily and Floyd.

The first meet of the year was held on April 10 with the Mississippi A. & M. track team, who, with one of the best cinder combinations in the South, nosed us out by the close score of 62 2-3 points to 54 1-3 points. The All-Star aggregation of New Orleans, composed of old L. S. U. and Tulane stars as well as promising prepsters, was defeated by a large margin.

The much heralded dual meet with the ancient rivals of ours, Tulane, came off on May 1, and it was nothing but a Tiger victory from start to finish, the L. S. U. team getting first places in nearly every event. The final score was 85 to 32 in favor of the Tigers. The track meet gave the Tigers a clean sweep for the year in every branch of sport over the Goats.

Twelve picked men went to Atlanta on May 15 to compete into the S. I. A. A. meet, and this little group put L. S. U. in third place with 24 3-4 points, Sewanee and Mississippi A. & M. nosing us out by narrow margins, Sewanee getting 29 points, and the Aggies 27 points.

It was a good year for the track team in every respect after the Mississippi A. & M. meet was left behind, for it gave us considerable standing in Southern track circles by coming in a close third at the S. I. A. A. meet with only twelve men present.

## Basketball Season, 1921

THE Tiger basketball activities for 1921 were beyond doubt one of the most successful in the history of the court sport at the university, for the "Ole War Skule" five was able to win seventeen victories out of the twenty-one games on the schedule, and of these four games lost, three were on road trips. Only one game was lost on the home court by the margin of one point, after an extra period of time was necessary to decide the victory.

The quintette started off the season in fine shape, and prospects were that the team might finish the season without dropping a game, but after twelve consecutive victories had been chalked, the Tigers met their Waterloo on their home court in the form of "Ole Miss," who took them into camp by the score of 23 to 22, after the hardest game of the season on the local court.

Included in the twelve victories were two wins over the Tulane Greenbacks, who had a faint hope that they might repeat their victory of the football season, but the Tiger five was on the jump and overwhelmed the Greenies in a brace of games that left no doubt as to who was the better team on the basketball court.

Among the brilliant victories scored on the home court were two splendid contests with the Texas A. and M. team, who went down in defeat in two games by the narrow margins of one point and two points each. These two games were among the prettiest seen here during the entire season, and the Tigers were up to championship form in defeating this team, which had not been defeated in two seasons and was the best quintette in the Lone Star State.

Springhill, the fast Alabama school, went down in defeat in two battles, as did Southwestern, State Normal, and the Pensacola Aviators, all of whom were defeated by heavy scores which indicated the real superiority of the Tigers. The sensation of the home stay came when the Tigers swamped "Ole Miss," 46 to 12, after the latter had defeated us the night before by a one-point margin.

The Texas trip, undertaken during the latter part of February, was on the whole very successful, the Tigers winning four of the six games played and not losing a series on the trip, being able to defeat every team that defeated her. Texas A. and M. won one game on the trip, as did Baylor; but as the Tigers also defeated each of these two teams once on the trip, that gave the Tigers three out of four with the Lone Star outfit, while we broke even with Baylor. Rice, considered very dangerous, and the Houston Y. M. C. A. Triangles, rated among the strongest amateur teams in the Southwest, were easily defeated by the Tigers.

Tulane pinched out one victory by a two-point margin in our two-game series with them in the Crescent City, but the Tigers came back the second night in the last game of the season in splendid fashion and defeated the Greenies by the score of 27 to 20.

The whole Tiger squad was on the go the whole season, and credit must go to the whole bunch for the splendid way they played. Captain Hays and "Dirty" Helm, assisted by "Bob" Jones, a freshman forward, played wonderfully, and their many field goals registered from all parts of the court were largely responsible for the battering offensive displayed by the Tigers all season. To R. W. Atkins, Perry Hague, and Reggie McFarland should go the credit for keeping the Tigers in the fight, for this trio of guards were there with the goods in holding down the opposition in the pinch. "Fatty" Ives, early in the season, was placed at center, and in this central position the standpat punter of grid fame showed up to great advantage.

The Tiger basketball team of 1921, while not securing an unbroken record, showed up splendidly, for, handicapped by loss of several varsity men, together with making a long, tiresome journey through Texas, was largely responsible for the few defeats suffered by them.

## Theta Sigma Sigma

Theta Sigma Sigma, an honorary journalistic fraternity for women, was organized in the winter term of 1919-20 with seven charter members, with the intention of petitioning Theta Sigma Phi, national women's journalistic fraternity. It was hoped that the fraternity would be an incentive to the women students to take more interest in the journalism work of the university.

At the beginning of the 1920-21 term two of the original members, Helene Robbins and Elizabeth Dozier, failed to return; the loss of Dr. H. M. Blain, Dean of the School of Journalism, crippled the department, and Theta Sigma Sigma was forced to postpone the petitioning of the national.

Three new members, however, were taken in in February, and with the re-establishment of all the courses of journalism, Theta Sigma Sigma plans to become a great incentive for better newspaper work.

ACTIVITY

### Mrs. A. M. Herget, Dean of Women

Mrs. Herget's ever sympathetic understanding has endeared her to every co-ed in the university. Always ready to help, always cheerful and ready for fun, she has been friend, adviser and companion, and is spoken of affectionately and proudly as "our dean." The most beloved of any dean who ever led the co-eds, it is the desire of every woman student that she long continue in her office.

## Catholic Co-Ed Club

At their meeting on December 15 the Catholic Co-Ed Club unanimously decided to affiliate with the National Council of Catholic Women, joining that organization as a club, with a right to representation at its national meetings, which are held annually in Washington.

The National Council of Catholic Women forms a connecting link for various groups of Catholic women throughout the country, and endeavors to promote social welfare work and education. Its officers and secretaries act as agents for various welfare organizations.

Through its membership in the National Council, the Catholic Co-Ed Club of the Louisiana State University hopes to broaden its sphere of usefulness and to make its club work more interesting.

And yet they come: the result being that with the opening of the session for 1920-21 we find two hundred members in the group known as the "co-ed body."

Back in the days which none of the present students recall, meaning eight or nine years ago, possibly ten, one young woman enrolled in the university, probably to the shocked surprise of the general public, for the purpose of studying Law!

It was startling for one of the opposite sex to invade a campus long considered sacred to men, but that she should come to study "Law" was unbelievable. That was long ago!

After a struggle the enrollment was opened to all women and they come and come and will continue to come. They invade every corner of the campus; they win honors for which men compete; there is no department in which their influence is not felt.

During the past two years the Physical Training Department has been added and is rapidly developing. A course for the training of prospective physical directors has been added to the curriculum.

At the head of this body, which has now become an influential organization, stands the Student Council, composed of class representatives and of one representative from the body at large. With the Honor System as a firm foundation to work upon, the council, under the general direction and supervision of a competent dean of women, attends to the affairs of the organization as the authorities see fit.

## Dramatic Club

The year 1920-21 has been the most successful in the history of the L. S. U. Dramatic Club. Much of the credit is due to Dr. J. Q. Adams, who was ably assisted by Mrs. E. M. Flower.

The club staged "The Prince Chap" in the fall and toured seven towns in Southern Louisiana. So popular was "The Prince Chap" that it was again enacted on college night, the last night of the high school rally. "Green Stockings," a clever little comedy, was staged at Elks Theatre in February, the benefit of ———, and was successful from both the artistic and financial point of view.

A national dramatic fraternity was organized, composed of members of the Dramatic Club who had taken part in at least two plays. This is an incentive for students to become members of the Dramatic Club.

The Dramatic Club suffered a loss at the end of the first term when Laurie Mobley graduated and accepted a position in Cuba.

Members of the Dramatic Club who took important parts in plays during the current year were Lewis Long, Charlotte Rice, Lilburne Daspit, Edna Arnold, Jack Adams, Yost Pipes, Laurie Mobley, Tom Holland, F. W. Hawthorne, Bush Harrington, Ruth Gladney, Undine Livaudais, Frances Peak and Johnny Lewis.

## Debating Teams

Polmer and Ellender, with Gladney as alternate, debated the University of Arkansas in Fayetteville on April 8. The subject was "As a matter of public policy the labor unions are justified in insisting upon the closed shop." L. S. U. had the negative side of this question.

Benoit and Chandler, with Parker as alternate, debated the University of Florida here on April 1. The subject was, "Resolved, that the Smith-Towner bill, now before Congress, be adopted." L. S. U. had the affirmative of this question.

The university's debating record for the past eight years, since the arrival of Professor J. Q. Adams as head of the Public Speaking Department and coach of debating teams, is indeed one to be proud of, having lost only one debate in that period of time.

## University Demonstration High School

U. D. H. S. was founded as a department of the Teachers' College of the University in 1915 to furnish means for practical training of teachers. It has since passed out of the experimental stage and is now a model school. The student body, with the aid of an excellent faculty, has developed a strong school spirit through the establishment of organizations of student activity.

## A Midsummer Night's Dream

### OR A FRESHMAN IN KING ARTHUR'S COURT

#### ACT I

*(Round table, room in "F," soph sergeant-at-arms, rack and other devices of torture.)*

KING ARTHUR: Hoc Siempre, Quo Vitas; who stands at the door, Stevens?

ENORMOUS: A hound, my lord, and fly withal.

*(Hound enters 'midst rattling of bed slats, brushes, and much eclat.)*

K. A.: Knowest thou how to salute, *Hound!* Bend thy knee and pay homage to your worthy peer.

*(Sergeant-at-arms applies bed slat.)*

K. A.: Arise, slave; so that thou may be anointed with the holy broom! Sleepless Knight, lay on the holy broom!

SLEEPLESS KNIGHT: Sir, the lance is broken at the hilt, but methinks the brush will suffice.

HOUND: Oh, noble King! I prythee, lay off the paddle, and I shall make thee a speech. I hail from Iberia.

ATTENDING KNIGHTS: Speech, speech!

KING ARTHUR: Thou hast a chance, SLAVE. Make it short and snappy, or thy locks come off in yon Sumpter House.

*(Hound makes eloquent speech on "How and Why of Which.")*

ACT II

Scene: Horrible.

(Curtain rises, showing 400 shaved domes and much hair and debris lying about.)

FIRST KNAVE (passing hand over nude pate): What the hell, and it's a month before Easter!

SECOND KNAVE: You said it—and not a hound got by.

(Enter King Arthur.)

KING ARTHUR: What, ho! What's the runkus? Bed formation! As you were! At ease! Has the job been done well?

SERGEANT-AT-ARMS: Aye, my lord; we wiggle a mean clipper. Sumpter House swarmed with visitors this a. m.

KING ARTHUR: (taking calisthenics at expense of Knave No. 2): Ah, 'tis well! The precedent continues. Mount them on postcards and show them about.

(Curtain. As Hound awakes reveille sounds.)

## GREAT MILITARY SCANDAL IS OUT

HIGHEST RANKING BATTALION  
OFFICER CHARGED WITH  
MUTINY

A scandal which has horrified the highest officials of the military has just leaked out. According to reliable sources, the information comes to us that Major McCalip was court-martialed by the Honor Council last January and sentenced to serve the rest of the year in close confinement and plenty of exercise.

It appears that the Major refused to take a shot of malaria vaccine mixed with lemon extract in the left arm when ordered by the hospital corporal. He insisted that it was to be administered in the right arm or the left foreleg. The controversy ended by the vaccine being injected in the chair leg, with a consequent damaging of the plunger of the hypodermic. This required that it be sent to the garage and a new differential placed in it. The garage presented the president with a bill for the new part and thirty gallons of gas.

The janitor, acting as attorney for the hospital brigade, filed suit in the Twenty-second Judicial Meot District Court to recover the hypodermic, which is alleged to be in possession of the gym custodian. It rests with the defense to prove that the onion crop in Egypt won't have any effect on the snowfall in Cuba next July.

McCalip was exonerated from the charge by the Classification Committee a month ago, after an appeal by his lawyers.

Mr. Willie Lucas, after finishing a first-class course of Mississippi marbles at Louisiana State University, located in Baton Rouge, we believe, will return for spring training among the Normal boys. —Natchitoches Knocker.

Cassius Ferguson, one of our illustrious sons, finishes with high honors in E.E. at L. S. U. this year. He informed us that he will return to the home town to deal in flts and fixtures. —Atlanta Pacific (Democrat).

## SENIORS RATED HIGHEST THIS YEAR

STATISTICS SHOW CANDIDATES  
FOR DEGREES TO BE CAPABLE  
OF ALMOST ANYTHING

Alumni Hall.—(Special to the Gargle.)—In a very interesting interview with Colonel Boyd our correspondent reports some very illuminating facts regarding the senior Class of '21.

"The Senior Class stands very high in my estimation," stated Colonel Boyd. (Take Red Hanley for instance.) "They have the earmarks of illustrious men and women. (He guessed at the marks on the women's ears). And I am sure that one-half of one per cent of them will succeed. (The rest take theirs a little stronger.)

"Take Mixon, for instance. He won't have to make his way in the world. They'll make way for him, especially if he decided to sit down.

"The tendency of the seniors in the past," continued the Colonel, "was to dodge work, but such is not the case with the present class. They fix it so they won't have to do even that much."

The Colonel digressed from this topic just as our correspondent awoke from his third siesta and the Colonel from his fourth. "Do you know what is the tendency of the student towards Bolshevism?" queried he, as the correspondent dozed off into profound slumber. His head flopped to one side as he lost consciousness, and the president construed this as a negative answer to his question. "Well," with a half hour's tapping of the right fingers on the left knuckles, "I've thought the situation over, and I've listened to the reports about Lucas and his underlings and their depredations on Squeezers, and of the midnight frolics of the cadets on and about the campus. The conditions are not any worse than they were fifty years ago, so I have taken the matter lightly." (The lights became very bright at this instant, and our correspondent was rudely awakened.)

## GLEE CLUB MAKES HIT

Packed Houses, Wires Stopper.  
Tiger Quartette Runs Amuck  
And Is Thrown for a  
20-Yard Loss.

A perfect performance was staged by the Glee Club at Baker last night. White was playing first base, while Cranfill held down second. Someone in the audience acted as pitcher and warmed up during the first part of the performance by tossing questionable eggs. Firnberg was given a base on balls because of a balk by the pitcher. He threw a wild cabbage, which hit Firnberg on the arm, the umpire giving him the benefit of the pitch.

Ray Alleman got a three-sacker with the saxophone on third, bringing in the tying score. The Parker rooters said it was a hell of a note. Stopper got sore about something in the third quarter and started razzing the umpire. Waymouth, accompanist, was horrified because of Stopper's ungentlemanly conduct and refused to bat in the last act. He was fined by the referee for feeding peanuts to the elephants.

The capacity of the house was forty-five, according to the latest statistics on death rates and insurance rates in Bolivia, and the Glee Club consisted of forty-six members without counting the saxophones, Tiger quartette, and tuning forks. To relieve the situation, Harry Stahl had to sell tickets out in the rain.

From Baker the club took sleepers to Plaquemine, but owing to a washout on the Cunard line to Cuba, the X, Y & Z missed connections with the P., D. & Q., so the boys had to spend the afternoon in Zachary. To wile away the time they put on a matinee, tea dansant, and a parcheesa party. The matinee wasn't much, ac-

## DRAMATIC CLUB HAS LOTS OF LUCK

**But It's All Bad, Wirelesss Yost  
Pipes—Stranded in Denham  
Springs With Only Two  
Bathing Suits.**

That the Dramatic Club's road trip was a huge success is acknowledged by everyone. "The trip was splendid," says our critic, "but the show was rotten."

Charlotte was shocked the third day out when some big bum asked her kindly if she would show him the "Green Stockings" which she bragged so much about. "Frog" says the next thing they will put on is "My Lady's Garter."

The opener in Brusly was a ripper, says Pipes. Holland was handling the old shade cloth, but tore it at the wrong time. Johnny Lewis was in the midst of Othello's soliloquy on Fatima cigarettes and was making the initial bow to Cleopatra (who was smoking Picayunes). The swimming trunks which he wore at the time belonged to Freshie Young. He was so mortified that the prompter shouted "Exit!" He refused to exit, though, until the curtains had been drawn and the lights extinguished.

The show had to be called off at New Roads because of a violent rainstorm that night, and the garage leaked too much, except for the submarine scene in the fifth stanza. Not to disappoint the crowd, the orchestra played "Sahara" in front of the drug store and received a goodly contribution. A brick building was going up next door and a fresh load of alley apples had just arrived via dray and truck.

"The Prince Chap" was the nomenclature of the first spasm that the general public witnessed. It was presented (we mean the show) during the first part of the year. It was so good, the producers claim, that they threw it on College Night. Whether the witnesses are of the same opinion we have never been able to ascertain.

## SENIORS RATED HIGHEST THIS YEAR

(Continued from page 1)

Seeing that the Colonel was fast weakening and was ready for the count for the sixth time, he folded his notebook and pencil and quietly slipped out of the sacred confines of the president's office.

(Installment II of this interview will be published at a later date. Order copies in advance.)

## LOCAL MARKET

**Degree Futures Unsteady—Panic Anticipated.**

With Graduation, Inc., falling from 100 to 43 in the last few months, the local market is very unsteady, according to Scott & Great Scott, brokers in diplomas. Graduates, Ltd., remains steady, with few sales, but senior futures look unfavorable. B.S. and M.S. fell off twenty points before noon today. A and S still stands at par, with Agriculture slightly above.

Due to the depredations of Frock & Garig, financial flibusterers, Fresh Sophs took a decided jump—down—averaging 62 for the second term. Third term futures look dismal. Hog and Hog rises like Bethlehem during the war. Students of the market predict a bumper crop and a consequent depression. Buy heavy of "Drills in English" and "Osgood" and avoid the panic.

## GREAT DISCOVERY BY CHEM STUDE

**Dr. George C. Hilman, Ph.D.,  
Noted Agriculturist, Discovers  
Wonderful Fertilizer.**

Chem Bldg (via mental telepathy).—By combining ferro- and ferri-compounds of orange juice by the aid of electro-violet rays and a subsequent hydrolysis with methylated camphor and a still further combination with artificially hatched carbon atoms, Dr. G. C. Hilman, of the Meta-Physical Research Department and Extension Division of L. S. U. Canteen Service, has perfected a new fertilizer for arid soils. The inventor claims that railroad spikes can be grown on common eggplants, and excellent grape shot can be plucked from the ordinary onion vine after three applications of the fertilizer. Cows eating weeds grown in this wonderful fertilizer furnish the pail at each milking.

Dr. Hilman is working on a nickel compound to be added to

the fertilizer, so that all articles grown would be nickel-plated. Nickel-plated potatoes could then be used for door-knobs and hob-knobs. Such an invention certainly will revolutionize the china egg industry.

## CHAPEL FRIDAY WAS HUMMER

**All Battalion Present, While  
Three Town Students Were  
Seen to Stay.**

Chapel Hall (by A. P.)—After three-quarters of chapel period was wasted by roll calls and time allowed for stragglers to clear the premises, Col. Boyd opened chapel exercises with a talk on movie ethics (removing of hats, proper placing of spent Spearmint, etc.). Then he introduced Mr. Stopher amid great and prolonged applause.

Mr. Stopher immediately delved into the topic of classic music, such as modern jazz, Indian tomtom serenades, and Arab skull melodies. After a bolsterous applause for each salient feature brought by Mr. Stopher, he retired amid a shower of scented forage caps and campaign hats. Someone in the audience enjoyed the talk so much that he chucked the stove, but fortunately it struck Mr. Stopher on the head.

After the collection plate was passed by the one-arm collectors and a pint of buttons, bric-a-brac, and a sack of Bull Durham were donated, chapel was dismissed by the ranking private of the awkward squad.

## GLEE CLUB MAKES HIT

(Continued from page 1)

According to the natives, but the tea was quite chic, and the par-cheesa party was chicken.

After a three months' delay the boys reached Plaquemine in the midst of the pecan-plucking season. Stopher wired us last night that they played to a full house. Mott held four aces and was run out of town for alleged sleeve methods. After the performance the entire club was full, also, so rumor has it. Stopher set the boys up to a near-beer party. The beer was in the showcases and the boys were on the outside of said showcases.

The ferry sank in midstream the day before the club returned with all hands. (It must have been a pretty big game.) So they arrived a day late, but were excused by the president.

### CLASSES

Being repeatedly late for first-hour classes, as quite a number of students are, is criminal. The only way out of the situation, as we see it, is to abolish first-hour classes. Further, as we see it again, classes are entirely too close together. The authorities should, by some drastic measures, either allow a rest period between classes of a few hours' duration or shorten classes. A three-minute class, somewhat like the rounds in box-fighting are, would be ideal. As a special inducement, games should be played before the class begins. Stud or draw wouldn't be bad. With the \$10,000,000 appropriation thrust on the university, it would be appropriate for the authorities to purchase pool tables. Brunswick-Balk isn't a pretty good brand.

Viewing the situation from all angles, reverse English on sharp ones, university authorities will certainly heed this timely remark.

### HOG LAW

Why the name Hog is applied to a law which punishes a student who certainly is not a hog for work is quite a paradox. Swine legislation certainly has a demoralizing effect on the aver-

age student. The university has assumed the wrong attitude in one respect. When a student and the hog law do not harmonize, the hog should be abolished, and not the student, as under present functioning of the third theriom of Euclidian drama.

The question of hog laws, hog bristles, and road hogs was taken up at the last convention of the Swine Breeders' Association of Louisiana, which took place in Liverpool. The question was thoroughly discussed by prominent members. The big Hog represented the student body and carried the issue (using a two-ton truck and making four trips) to the upper house. Being it was the first issue, it was tabled by the acting secretary to the First Aid Cabinet, vindicating the old college yell that "The first shall be last."

As we go to press (we used apples yesterday, but it was too warm and the durn stuff went to vinegar) the motion was still on the table. Under so strong a motion, it was but natural that the table was motioning when we last looked at it; so much so that we had to slap ourselves and feel our pulse.

### CO-EDS

"Co-education is impossible," stated Mr. Piere Simpson, who is visiting his son, Abraham. By the way, Mr. Simpson is only recently recovering from a crick in the front of the neck.

Young and innocent girls come from a genteel family away from the farm, where they are used to putting in twelve hours per massaging Beck's flanks with a ten-foot thong while bearing down on a Doe's sub-soil scratcher or climbing the back fence on the Fordson, to a place of frivolity and a time-killing institution as L. S. U., where they learn to shake a mean fender and appear dressed up in a handkerchief and powder puff.

After the young man has been to school—until the Hog gets him—and has seen the above-mentioned farm maid, it is impossible to induce him to return to the farm. He either wants to be a millionaire and own a Stutz or work at the Standard Oil. He usually works at the Standard Oil.

The cause of all this is co-education. If co-education was abolished the girls couldn't go to school, and the boys wouldn't, so the teachers would not have to work, and everybody would be happy.

## ATHLETIC NOTES

All students desiring to take boxing lessons report to Tad at the gym tomorrow. A supply of tomatoes, eggs, and onions are on hand, and the boxing of these commodities will be minutely explained. Bring your own hammer and nails.

Wrestling matches will be presented to the public every day at noon from now on at the university cafeteria, according to Tad. A new shipload of spaghetti has just been received from Wales. Bring your own spools and vacuum pumps. All spaghettis have knots tied at the ends to prevent choking of the opponents.

## As We See It

### A CLASSROOM REMINISCENCE

10 A.M.—First bugle sounds. Class gathers in front of Chemistry building. Cigarettes are lighted.

10:05—Second bugle barks. Class still gathers. More cigarettes are lighted.

10:10—Class slowly drifts into Soph Chemistry classroom. Chairs in the rear rapidly fill. Front seats left for stragglers.

10:20—Doc Coates enters. Prof. Menville calls roll, and Doc spends next fifteen minutes on treatise on petty thievery in connection with missing Mazdas.

10:35—Scraping of feet as someone suggests that the bugle just sounded. Doc springs a rich joke for the fourth time this term. Everyone laughs, first and last rows loudest. More scraping of feet.

10:40—Stragglers come in, quietly take seats, and join in feet-scraping movement. Next ten minutes spent in silence as Doc gazes in northwest corner of room. Only sound heard is the heavy breathing on back row.

10:50—Feet-scraping breaks silence as Doc hurriedly turns through chemistry text, glances at watch, and—"Now, gentlemen, I have covered forty pages of this text, and shall assign the next twenty pages for next time. Mr. Menville, will you get the names of those who came in late?"

10:55—Class is awakened by bugle's blast, and signature practice on chairs by those awake is brought to a halt. Class files out to proceed to the next place of rest.
